Educating Tomorrow's Leaders

MASTER OF BUSINESS ADMINISTRATION

(Health Care Management)

KPT (JPS)/(PA11162) 07/15

AIMST University offers a Master of Business Administration in Health Care Management.

The objective of the master's programme is to provide a unique opportunity to health care professionals, enabling them to develop and enhance their leadership potential and specific skill-sets which are seen as a top priority in health care management, particular in today's highly charged competitive business environment. Health care professionals with the requisite business management skills and knowledge are increasingly in demand to meet emerging industry standards and the growing needs of the health care industry. These health care specialists are empowered to create and deliver value in high performing health care organizations.

Participants embarking on this programme will go through an integrated learning experience that will broaden their leadership style and strategic management skills-sets, ultimately laying the foundations for strategic innovative thinking that is germane to creating an edge for the organizations they are engaged in.

Entry Requirements

- A recognized first degree that is recognised or an equivalent academic qualification from an overseas establishment approved by the University Senate.
- An English Certificate of IELTS/TOEFL (International applicants only).
